

Quality Software Services, Inc. (QSSI) and team member **Seeds of Genius** are pleased to announce our selection as a contractor for the NIH Information Technology Acquisition and Assessment Center (NITAAC) Chief Information Officer 3 (CIO-SP3) Government Wide Acquisition Contracts (GWAC). This versatile IT service contract provides unparalleled speed, flexibility, and cost effectiveness in the procurement of a broad range of IT services.

ABOUT CIO-SP3

The CIO-SP3 GWAC is a 10-year, \$20B Indefinite Delivery, Indefinite Quantity (IDIQ) contract designed to permit the Department of Health and Human Services (DHHS) and all other federal agencies to acquire a wide range of IT services and solutions. Managed by NITAAC, a designated Federal Executive Agent authorized to provide federal civilian and DoD agencies with GWAC vehicles, the CIO-SP3 is a unique, streamlined and comprehensive GWAC.

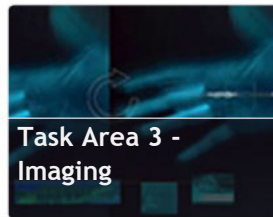

The CIO-SP3 scope is broad enough to encompass any IT requirement, the ceiling is high enough to accommodate the most complex enterprise solutions, and the contract is agile and flexible enough to accommodate customized needs from unique terms and conditions to modular contracting. CIO-SP3 allows for streamlined planning, acquisition, and deployment of large-scale IT program requirements. A summary of CIO-SP3 advantages include:

- ❖ Broad IT services scope – 10-task areas provide comprehensive IT services;
- ❖ Available to all federal agencies – As a GWAC, all civilian and DoD agencies may participate;
- ❖ Streamlined acquisition and fast provisioning—ability to use simplified evaluations at the task and delivery order level, resulting in significant savings in time, money, and resources.
- ❖ 1% contract fee - no additional charge for value-added services;
- ❖ Support all contract types – FFP, CPFF, CPAF, CPIF, T&M, Hybrid;
- ❖ Secure, proven web-based ordering and management systems;
- ❖ Highly cost competitive with 137 pre-negotiated labor rates; and
- ❖ Support CONUS and OCONUS Projects – CIO-SP3 provides global support services.

BROAD IT TASK AREAS

CIO-SP3 includes the following 10 task areas that ensure the CIO-SP3 GWAC provides innovative and secure solutions for agencies across the federal government and initiatives as diverse as Cloud Computing, Cyber Defense, and Health IT.

NITAAC CIO-SP3 Services

ABOUT QSSI

QSSI is a CMMI Maturity Level 3 rated software engineering and security services firm with a proven track record of delivering a broad range of healthcare solutions. Founded in 1997, QSSI is a mature federal prime contractor with proven experience in managing large scale, multi-year projects on time and within budget. Headquartered in Columbia, MD, with offices in Herndon, VA, Baltimore, MD, Columbia, SC, Canton, OH, and India, QSSI has over 500 dedicated personnel and consultants worldwide who deliver cutting-edge healthcare IT solutions and services to federal clients. We have successfully performed hundreds of contracts and task orders over the past decade, supporting many Federal and civilian agencies. As a leading Federal IT contractor, QSSI focuses on Health IT and programmatic solutions and brings an excellent understanding of the current and future directions of Federal healthcare. Our clients include but are not limited to the Centers for Medicare and Medicaid Services (CMS), the National Institutes of Health (NIH), the Food and Drug Administration (FDA), and the Department of Veterans Administration (VA).

ABOUT SEEDS OF GENIUS

Seeds partners with industry leaders to unconditionally satisfy our customers' enterprise requirements. We have in place the partnerships, industry certifications, reseller agreements and the technical expertise to deliver customer defined IT solutions to exacting specifications. Seeds has strong established partnerships with over 150 industry leading IT commodity OEMs experienced in supporting the Federal Government as a customer, including Brocade, CISCO, Dell, EMC, Hitachi, HP, IBM, Microsoft, Novell, Oracle, Red Hat, Symantec, and VMWare. Because of our ability to provide cross-coverage of disciplines, we've developed partnerships with the best in the industry. This allows us to build a supply chain around synchronizing supply with customer demand, creating net value, building a competitive infrastructure, leveraging worldwide logistics, and measuring performance globally. We leverage the technology of our partners to develop and deploy only the most innovative IT services and products to solve the critical needs of the Federal, State, and local governments.

ABOUT THE QSSI CIO-SP3 TEAM

To ensure the comprehensive skills and breadth required of the CIO-SP3 contract, QSSI constructed a team that ensures we have the ability to support all CIO-SP3 task areas with proven skills and a deep resource pool. Led by QSSI and our proven Federal Health IT performance, we have assembled a team based on a number of proven QSSI partnerships - a mix of both the general and niche solution providers; support for both CONUS and OCONUS efforts; and a proven, Task Order Management process.
